

## Solar LED Aviation Light (SNAL-4)

Navaid Energy's SNAL-4 is medium intensity Solar LED obstruction light with a range of 4-6NM with 144mm Polycarbonate lens for long term use, cost effective, zero maintenance and easy to installed with 256 flashing characters. SNAL-4 can be used as obstruction light on High Rise Buildings, Towers, Telecom towers, Chimneys etc.

### SALIENT FEATURES

- Long Life**
- Strong & Robust**
- Compact**
- No Maintenance**
- Shok & Vibration Resistance**
- UV Stabalised Polycarbonate Lens**

### Technical Specifications

- Aviation Light - LED Type (RED)
- No. of LED- 12Nos. (High Brightness LED)
- Operating Voltage- 12V DC
- Electronics- Microcontroller based
- Charge Controller- Inbuilt
- Sun-Switch- Inbuilt
- Solar Panel- 10W/12V X 2Nos
- Battery (SMF)- 18Ah/12V
- Operation- Flashing Light
- Dome- UV Stabilized Polycarbonate Lens
- Light Operation- Automatic Dusk to Dawn
- Body- Aluminum Cast (water proof)
- Mode available- Stationary/ Flashing
